Sihan Qin

Robot learning and real-world systems

qinsihan999@gmail.com | LinkedIn | Google Scholar | GitHub | Website
Shenzhen, China

EDUCATION

Sun Yat-sen University
Expected Jun 2027

B.Eng. in Computer Science and Technology (Artificial Intelligence & Big Data)

- GPA: 3.8/4.0. Coursework includes machine learning, robotics, modern control systems, multimodal deep models, optimization, and pattern recognition.
- 3rd-Class University Scholarship (2023, 2024, 2025); Honorable Mention, Mathematical Contest in Modeling (2025).

RESEARCH & ENGINEERING EXPERIENCE

BrainCo Technology Co., Ltd.
Sep 2026 - Present

Embodied AI Algorithm Intern | Shenzhen, China

- Lead a semi-autonomous prosthetic system project, with responsibility for the engineering workflows that support research and real-world deployment.
- Built data-collection and dataset-management infrastructure to support data acquisition, organization, and model training.
- Developed training and inference pipelines and conducted experiments to improve and validate robot policies.

ISEE Lab, Sun Yat-sen University
Apr 2026 - Sep 2026

Research Intern | Advisor: Prof. Weishi Zheng | Shenzhen, China

- Explored reinforcement-learning post-training for vision-language-action models in multi-task settings.
- Worked on model training and evaluation in RoboTwin 2.0 and LIBERO, and explored real-robot training and inference workflows.

HCP Lab, Sun Yat-sen University
Jul 2025 - Mar 2026

Research Intern | Advisors: Prof. Guangrun Wang and Prof. Liang Lin | Guangzhou, China

- Contributed to team research on transferring physical priors from pretrained video models to robotic manipulation.
- Conducted model training, evaluation, and hyperparameter experiments in ManiSkill, LIBERO, and CALVIN.
- Supported real-robot experiments on a Franka Panda arm, teleoperated data collection, and paper writing.

Guangzhou Shuzhi Technology
Sep 2025 - Oct 2025

Algorithm Intern | Guangzhou, China

- Developed retrieval-augmented prompting workflows for an academic-industry matching platform.
- Structured model-generated analyses as JSON and integrated outputs with databases for frontend use.

PUBLICATIONS

Physical Autoregressive Model for Robotic Manipulation without Action Pretraining.

Learning Physics from Pretrained Video Models: A Multimodal Continuous and Sequential World Interaction Models for Robotic Manipulation.
Zijian Song, Qichang Li, **Sihan Qin**, Yuhao Chen, Tianshui Chen, Liang Lin, Guangrun Wang.
ICMR 2026 | arXiv:2603.00110

SIRI-Bench: Challenging VLMs' Spatial Intelligence through Complex Reasoning Tasks.
Zijian Song, Xiaoxin Lin, Qiuming Huang, **Sihan Qin**, Guangrun Wang, Liang Lin.
arXiv:2506.14512

SELECTED PROJECTS

Zotero Paper Partner
Apr 2026 - Present

Independent project | GitHub

- Built a Zotero plugin that answers questions inside native notes, keeping paper reading and note-taking in one workflow.
- Provided English and Chinese documentation, installation guidance, demonstrations, and downloadable releases.

Cyberpunk Recon

Team computer graphics project | GitHub

- Built a C++ / OpenGL exploration game with camera controls, scene loading, post-processing, and target-scanning gameplay.
- Owned the core architecture, camera and input systems, and module integration; collaborated on scene rendering and UI/gameplay.

EARLIER RESEARCH

Procedural 3D Image Generation from Lung CT Scans
May 2024 - Sep 2024

Robotic and Intelligence Computing Lab, SYSU | Advisor: Prof. Kai Huang

- Processed public lung CT data through segmentation, meshing, and point-cloud conversion using scikit-image and Open3D.
- Applied geometric methods to separate bronchi and lung boundaries for downstream analysis.

SKILLS

Research & engineering: robot learning, machine learning, deep learning, real-robot experimentation, data tooling, training and inference workflows.

Tools: Python, C++, PyTorch, Linux, OpenGL, Open3D; ManiSkill, LIBERO, and RoboTwin 2.0.

CAMPUS INVOLVEMENT

Sun Yat-sen University Student Union & School of Computer Science Student Union
General Affairs Department member; Red Kapok event coordinator | Sep 2023 - Jul 2024.
